SUMMARY

- Full Stack Web Developer with a solid grasp of frontend and backend fundamentals.
- Comfortable raising issues to keep projects on track, open to guidance and feedback for ongoing improvement, and collaborative in overcoming blockers while consistently delivering tasks within established timelines.
- Skilled in breaking down complex tasks into manageable steps, with a focus on practical problem-solving and continuous learning.

PROJECTS

FoodSaver — Smart Food Inventory & Waste Reduction App

- FoodSaver is a web platform that helps users track their household food inventory, reduce waste, and optimize ingredients.
- Users can add, update, and delete items while receiving notifications for expiring products and low stock. They also get recipe recommendations using ingredients that need to be used soon.
- Admins manage users, ensuring smooth platform operation.
- The project showcases my full-stack development skills, including user authentication, real-time notifications, and API integration for smart meal planning, improving efficiency and minimizing food waste.
- **Technologies**: React, Tailwind CSS, GSAP, Node.js, Express.js, MongoDB, Swagger.
- **Repository**: https://github.com/sandyFit/foodSaver.git

EDUCATION

Graphic Design, Academia de Dibujo Profesional

- 3-year associate degree
